

First in excellence for radiation technology

alphaXRT was founded in 1990 and has offices in Auckland and Sydney, our primary business interests are in Radiotherapy and High Energy Physics.

**alphaXRT offer the following expertise in Accelerator Technology:**

Beamline Magnet Manufacture  
Innovative Shielding Design & Solutions  
Magnetic Field Measurement  
High Voltage Power Supplies  
Comprehensive Project Management

alphaXRT is the exclusive Australian representative of **Buckley Systems**, a leading manufacturer of precision electromagnets, charged particle beam line systems, and high-vacuum equipment.

**alphaXRT also supplies products from:**

<b>Glassman High Voltage</b>	Precision Regulated HV DC Power Supplies
<b>Metrolab</b>	Advanced Magnetic Field Measurements
<b>Veritas</b>	Radiation Shielding Systems
<b>Advanced Cyclotron Systems</b>	High Output Cyclotrons

**Comprehensive Project Management:**

alphaXRT has proven experience in the management of complex projects including being Project Manager and JV Partner for production and supply of all Storage Ring Magnets at the Australian Synchrotron. Total: 1500 coils, 210 magnets, 230 Tonnes.

alphaXRT have been an ISO9001 certified company since 2003

**alphaXRT Australia**
